

Air and Coolant Heaters
Engine-Off Heating

Webasto
Feel the drive

The Smart Choice to Save Fuel.

The price of diesel fuel directly affects the bottom line of truck fleets and owner operators. Webasto bunk heaters and engine pre-heaters save big money in reduced fuel consumption and operating expenses. Eliminating the need to idle the truck for heat, Webasto heaters offer an amazingly short return on investment, and are eligible for many funding opportunities.

Coolant Heaters

Webasto coolant heaters get to work before drivers do, pre-heating the engine, eliminating cold starts, and warming the cab's interior.

Features and Benefits:

- Uses as little as 1 Gallon of fuel in a 10 hour period*
- CARB approved and EPA recognized*
- Fast Return on Investment
- Eliminates cold starts
- Provides engine pre-heat and reduces engine wear and tear
- Thermo 90 ST and DBW 2010 also can be used to heat sleeper
- Product warranty covers 2 years/2000 hours parts and labor
